How many hours do you spend doing homework every week?

How many hours do you spend playing video games every week?

We presented the data in three different charts. Here are the results.

2 READING • Emojis

I can identify the main topics in an article.

THINK! Why do people use emoticons?

Look! I'm speaking emoji 😊

- 1 Sitting on the sofa, Anna is sending Lucy an instant message. But Anna isn't using real words or writing real sentences. Like other young people, they're communicating with small, **colourful** pictures – emojis.
- 2 You can find **creative** emoji T-shirts, posters, videos, stories and songs. Emojis are everywhere, but where are they from and why are they so popular?
- 3 The emoji inventor, Shigetaka Kurita, is from Japan, and 'emoji' in Japanese means picture (e) and letter (moji). Now over a thousand emojis with different skin colours show people and ideas from many cultures, not only Japan. They are becoming a truly **international** language.
- 4 Emojis and emoticons can show our feelings. When we aren't speaking face-to-face, it's important to see if a message is sad, silly, **funny** or happy. So emojis are **useful**, but they mostly add a bit of fun and colour to our lives. We really love them.

1 Read the article. Which of topics A–E are in the text? Put the topics in order.

- | | |
|---------------------------|--------------------------|
| A Emojis to communicate | ☐ |
| B Fashion in Japan | ☐ |
| C Emojis in everyday life | ☐ |
| D Emojis and emotions | ☐ |
| E Where emojis are from | ☐ |

2  1.16 Read and listen to the article. Write *True* or *False*.

- 1 Lucy is reading a message made of emoticons.

- 5 Emojis don't help with communication.

LANGUAGE FOCUS • Present continuous: affirmative and negative

I can describe what's happening in a picture.

- 1 Complete the sentences with the words in the box. Check your answers in the text on page 22. Then choose the correct words in the Rules.

are becoming aren't speaking
is sending isn't using

- 1 Anna..... Lucy an instant message.
- 2 Anna..... real words.
- 3 They..... a truly international language.
- 4 We..... face-to-face.

- 2 Read the Study Strategy. Then write the *-ing* form of the verbs. Check your answers in the text on page 22.

- | | |
|----------------|---------------|
| 1 become | 4 speak |
| 2 use | 5 sit |
| 3 send | 6 write |

STUDY STRATEGY

Finding spelling rules

Sometimes the final letter of a verb can show you how to spell the continuous form.

- Look at verbs that end in *-e*. Do you keep or delete the *-e* before you add *-ing*?
- Look at verbs that end in a short vowel and then a consonant. What letter is added before *-ing*?

- 3 Look at picture A. Complete sentences 1–5 using affirmative and negative forms of the present continuous.

- 1 A man, a woman and a dog..... (sit) in a boat.
- 2 The man..... (have) a conversation.
- 3 The woman..... (listen).
- 4 She..... (sleep).
- 5 The dog..... (point) to a sign.

RULES

- 1 We use the present continuous to talk about **things happening now / habits**.
- 2 We make the present continuous with the verb **do / be** and the **-ing / base** form of a verb.
- 3 We don't usually use some verbs in the present continuous. Two of these are **be / live** and **make / have (possession)**.

4 1.17 PRONUNCIATION Sentence stress

When we speak, we often put stress on content words. Content words carry important information.

LINDA is DANCING.

PETER is READING a STORY.

We don't put stress on structure words. Structure words make a sentence grammatically correct. For example, *am - is - are* are structure words in the present continuous tense.

Read and highlight the words we put stress on. Then listen and check.

- 1 They aren't having a fantastic holiday!
- 2 The man is helping the dog.
- 3 The dog is swimming.
- 4 The woman isn't sleeping.
- 5 The man is speaking on the phone.

- 5 **USE IT!** Look at picture B. Read the sentences from exercise 4. Say if the sentences are True or False.

ENGLISH PROFICIENCY INDEX

People often talk about English as a *lingua franca*. More than 350 million people around the world speak English as their first language and over 900 million speak it as a second language.

Education First (EF) is an international education company in the USA. It produced English Proficiency Index (EPI) in 2011. It ranks how well non-native English speakers can speak the language in their countries.

In the most recent edition of the EF index for the Asian region, Singapore ranks 1st – its EPI score is 611. Second is the Philippines with an EPI score of 562. Việt Nam ranks 13th with an EPI score of 473.

In Việt Nam, the development of most aspects requires better English. More people are interested in learning English. Hopefully, the EPI in Việt Nam will be higher in the years to come.

WRITING • A special event

I can order events in the past using sequencing words.

THINK! What special days or events do you celebrate with your friends and family?

'Tell us about a memorable event in your life and you can win a new smartphone.'

My family's party

I'll never forget last July. That's when my big sister and her boyfriend decided to get married, and my parents had a fantastic party at our house to celebrate.

First, my mum and I went shopping for food and drink. At six o'clock, my sister's friends arrived for the party. At seven o'clock, my dad started the barbecue in the garden and after that we cooked potatoes and burgers. It was a very warm night. We ate the food and then Dad started the firework display – that was a great surprise. Finally, at about eleven o'clock, everyone went home. There were about twenty people and we all had a good time. Only our dog didn't enjoy the party. He stayed in the house – he didn't like the noise of the fireworks! It was a great evening and I was really happy.

Thanksgiving Day

Americans celebrate the Thanksgiving holiday on the fourth Thursday of November. Families meet for a special meal including turkey, corn, potatoes and pumpkin pie – a popular dessert. Then families do activities together or watch TV.

The Thanksgiving festival celebrates the first harvest of the Pilgrims – a group of religious settlers. In September 1620, they left England for America on a ship – the Mayflower. That winter, when they arrived, they were very cold and didn't have enough food. So half of them died. A Native American leader, Squanto, visited the settlers. His people showed the settlers how to grow corn and vegetables and how to hunt animals for food.

In autumn 1621, after a good harvest, the Pilgrims held a big celebration to thank God. They invited the Native Americans. For three days, they ate together. Also, they played games, sang songs and danced. It was the start of a long tradition.

I can listen to someone describing photos, and understand the main ideas.

THINK! What photographs do you prefer: people, places or sport? Why?

Expert tips

How to take better photos

It isn't ¹easy / brave to photograph wild animals because they are ²slow / fast. You need to be very ³happy / patient. Find a ⁴comfortable / careful place and sit ⁵badly / quietly.

Remember, it's ⁶polite / rude to take photos of people you don't know. Most people will ⁷happily / rudely say yes if you ask ⁸politely / well for permission.

Holiday photos are often ¹²bad / slow, so if you want to take a ¹³good / quiet photo, think ¹⁴creatively / comfortably and choose unusual angles.

When people are doing sports, they don't move ⁹slowly / patiently, so choose ¹⁰carefully / bravely where you stand. For dangerous sports, the photographer needs to be ¹¹creative / slow and good at the sport, too.

I took this photo while we were on a safari holiday in Kenya last February. It was an amazing rescue and I was lucky to see it.

It happened while we were taking photos of wild animals. We were driving slowly when we saw a bulldozer. There was a group of people and they were looking at something. There was an elephant. It was in a mud hole and it couldn't get out. The elephant wasn't moving, but it was alive. A bulldozer was breaking the sides of the hole. As soon as it was possible, the elephant climbed out. After a few minutes, it walked away.

The elephant was very lucky to be alive after twelve hours in the hole. The rescuers were very pleased and one of them posted a video of the rescue online.

The history of animation

- 1 In the 1880s, Eadweard Muybridge invented the zoopraxiscope. This machine took photographs of moving things. This was the earliest form of animation.

- 2 In 1895, the Lumière brothers invented the cinematograph. Early film-makers used it to make stop-motion animation. With this technique, they made *King Kong* in 1933.

- 3 In the 1920s, Walt Disney began to use 'hand-drawn animation'. Artists drew the pictures onto transparent pieces of plastic, or **cels**. The film-makers put the cels on painted **backgrounds** and photographed them one at a time. In 1928, Disney studios introduced the **character** of Mickey Mouse in the first cartoon with sound, *Steamboat Willie*.

- 4 In the 1960s, people started using computer animation. At first, computers could only make simple **stick figures** move on films, but by the 1990s, studios used realistic computer-generated imagery (CGI) for special effects. READING • Meals for medals

I can guess words in a text I don't know by looking at the context.

THINK! What do you eat to have the best performance?

CAN I BECOME A BODYBUILDER?

Yes, you can. You should practise bodybuilding regularly and have a good diet like this:

- **Breakfast:** scrambled eggs, and vegetables
- **Snack:** whey protein shake, soft-boiled eggs
- **Lunch:** grilled chicken breast, mixed greens, and baked sweet potato
- **Snack:** hard-boiled eggs and carrot sticks
- **Dinner:** fish, green beans with brown rice

Just follow our instructions and you won't look different from a famous bodybuilder.

CAN I JUMP AS HIGH AS NBA* STARS?

No, you cannot if you do not eat as many calories as them. A basketball player needs between 2,500 and 5,000 calories per day. Bananas contain helpful nutrients that make the body feel full of energy. Each banana, on average, contains 30g of carbohydrates, and about 0.01g of vitamin C. Especially, bananas are a rich source of potassium, about 0.4g of each. Potassium reduces a sudden pain in muscles. That is why a wise basketball player often enjoys a banana before or during the game.

WRITING • A biographical web page

I can order information in a biography using paragraphs and topic sentences.

THINK! What famous people from the past do you admire?

Achievements

Agatha Christie

¹Agatha Christie was a British writer. She was born in England in 1890 and died there in 1976.

²She first started writing when she was sixteen. Later, when she was a nurse, she had the idea for a detective story and she published her first novel in 1920. She was a very shy person, so she was happier to stay in and write than to meet people.

³Agatha Christie eventually became one of the most popular writers in history.

She wrote more than sixty novels, as well as plays and poetry, and sold more than two billion books. There are translations of her books in more than 100 languages. People love her work because the characters and the mysteries are so interesting.

- 1** Read the biography. How old was Agatha Christie when she published her first novel? Why are her books popular?

Language point: Paragraphs and topic sentences

- 2** Match the **blue** first line of each paragraph (1–3) with the subject of the paragraph (a–c).

a. Early career c. Life
b. Achievements

CLIL • Science: Average speed

I can calculate speed using distance and time.

1 Read the text and answer questions 1–4.

In the 200m freestyle, swimmers must swim four lengths of the pool. The pool is 50m long. The table below shows the time that it took four swimmers to complete each length.

Length number	1	2	3	4	Total number of seconds
Name					
Fields	40	41	39	41	161
Gomez	40	37	36	39	152
Jones	39	42	40	38	159
O'Hara	38	37	39	37	151

- Who had the fastest length?
- Who had the slowest length?
- Who finished first?
- Who finished last?

2 Check the meaning of the words in the box. Then read the equations and answer questions 1–2.

distance time average speed
calculate equation

The winner of the race is the person who has the fastest average speed.

To calculate average speed, you need the following equation:

$$\frac{\text{distance}}{\text{time}} = \text{average speed}$$

distance: the race was 200m.

time: Fields completed the 200m in 161 seconds.

So, average speed:

$$\frac{200}{161} = 1.24 \text{ metres a second (m/s)}$$

To calculate average speed in kilometres an hour (km/h), use this equation:

average speed in m/s $\times 3.6$ = average speed in km/h.

- Look again at the table in exercise 1. Calculate the average speed of Gomez, Jones and O'Hara in m/s.
- Now calculate the average speed of all the swimmers in km/h.

3  **USE IT!** Read the sentences and find each average speed in km/h.

- In 2014 Dennis Kimetto completed the Berlin Marathon in 2 hours, 2 minutes and 57 seconds (2.05 hours). The marathon was 42.19 kilometres.
- In 2014 Dame Sarah Storey completed the 3 kilometre para-cycling track race in 3 hours, 32 minutes and 5 seconds (3.54 hours).
- In 2015, Lewis Hamilton drove one lap (5.3 kilometres) in the Australian Grand Prix in 1 minute, 30 seconds.
- In 2014 Sarah Sjöström swam the 50m butterfly in 24.43 seconds.
