Last weekend, Alice went to Dolphin World to watch dolphins. She learned a lot of things about them. Dolphins are very clever animals. They learn things very fast. They are a part of the whale family but they are smaller than whales. Alice was surprised by the way a dolphin talked to another dolphin by making noises. Alice liked watching the dolphins playing with a ball in the water. Then they jumped up and back in again. That was great. They were also friendly and liked to be near people. They came very near to Alice and she could touch them easily. That was a memorable trip in her life. She hopes she has one more chance to see them in the ocean from a boat.
